**MEISSNER EXPO**

The reliable partner for your perfect presentation.

Our core areas of expertise consist of professional exhibition, trade fair and interior design, and the conception and realization of theme-orientated marketing performances.

We consider ourselves primarily as a concept developer, designer and implementer for communications events. The focus is placed completely on your brand and your message, which are set in time and space to ensure a high level of awareness and recognition.

Together with you, we develop individual and creative solutions for your ideas and projects, realizing them competently within the agreed budget and to the most appropriate and affordable quality.
